LEXAL HT 700 DRILLING SUITE

HYDRAULIC DRILLING JAR & ENERGIZER

The Lexal 700 HT suite of Drilling tools include a 7" OD High Torque Double Acting Hydraulic Jar and matching High Torque Double Acting Drilling Energizer. These tools were designed to meet the challenging wellbores being drilled today. The 7" OD allows for higher torsional ratings than traditional 6.5" OD tools and the matched energizer allows for optimized Jar performance in extended reach wells.

	Jar	Energizer
TOOL OD	7"	7"
TOOL ID	2.75"	2.75"
TENSILE	960,000 LBS	960,000 LBS
TORSIONAL	80,000 FT-LBS	80,000 FT-LBS
UP JAR LOAD	215,000 LBS	
DOWN JAR LOAD	200,000 LBS	
TOTAL STROKE	24.5"

Thanks for the Saturday Meal!

Oilmen's Bass Classic

Welcome

The board of directors and sponsors of the 42 nd annual Oilmen's Bass Classic extend a hearty welcome to our participants.

A special thanks to all the past board members and sponsors that worked so hard to start this great tournament.

We thank you, the participants and sponsors, for making our Oilmen's Bass Classic the oldest oil & gas industry bass fishing tournament. Also, we recognize that without the help of volunteer workers and the cooperation of the Sabine River Authority and Cypress Bend Resort personnel, that this tournament would not be what it is today.

We have had 41 great years and we recognize that without the help of the past board of directors, this tournament would not be the success that it is today.

The generous support of our sponsors has allowed us to provide the participants with two great days of outstanding fishing, fun, and entertainment.

Again, thanks for all the hard work, and congratulations to all involved in helping make it to 42 years.

With everyone's continued support, we look forward to keeping the primary goal of this tournament an instrument for bringing people in our industry together, while at the same time supporting Shriners Hospitals for Children.

SCOTT MCDANIEL

Door Prizes

Friday & Saturday

Awards Ceremony 6:00 p.m. - 7:00 p.m.

- 1.) **SPORTSMANSHIP:** Sportsmanship, courtesy, safety and conservation are expected from each participant. Any infraction of these fundamental sporting principles or violation of any local, state or federal laws may be deemed cause for disqualification. Any act of a competitor - verbal or physical, that reflects unfavorably upon this tournament's effort to promote fishing, conservation, clean waters, courtesy and safety shall be reason for disqualification from this and all future tournaments.
- 2.) **ELIGIBILITY:** Eligibility of the two (2) person team participating in the Oilmen's Bass Classic is subject to qualification and approval by the Oilmen's Bass Classic registration committee. Decisions of the committee are final.

The CAPTAIN of the two (2) person team's annual income must be (or has been retired) directly derived from being employed or engaged in the exploration, production, drilling, refining, and/or servicing of the oil and gas industry. The second person of the two (2) person team can be anyone chosen by the team captain, regardless of that person's occupation, if any.

Not eligible: Anyone who is serving as a licensed guide or has guided without a license for pay on the tournament lake within the past twelve (12) months will not be eligible. Anyone who has two (2) or more recognized professional bass fishing circuit tournaments with an entry fee of \$500.00 per individual in the past twelve (12) months is not eligible. Any individual fishing competitively to earn their living is considered a "professional" and is not eligible to fish.

Participants must have a valid Texas or Louisiana fishing license. The rules and regulation committee reserves the right to refuse any entry application. Applicants may be required to furnish the committee with proof of eligibility.

- 3.) **SAFETY:** Safe boat conduct must be observed at all times. Drunkenness on the part of any contestant will not be tolerated. All boat must be equipped with some type of emergency kill switch. **A US COAST GUARD APPROVED LIFE VEST MUST BE WORN, FASTENED AND ATTACHED TO THE EMERGENCY KILL SWITCH ANY TIME THE BOAT IS MOVING ABOVE IDLE SPEED.**
- 4.) **TEAMS:** Teams will consist of two (2) eligible individuals registering as such. There must be two (2) registered contestants in the boat at all times, and no one is allowed in the boat who is not a member of the team. Any contestant's action will directly reflect on his teammate. There will be no use of guides during tournament competition in any manner

5.) **TACKLE:** Only artificial lures can be used; no prepared or live bait other than pork rind strips may be used. Only rod and reel outfits may be used. No trolling is permitted.

6.) **SCORING:** Scoring will be based on the weight in pounds of bass (Largemouth, Kentucky or Spotted) with a **minimum length of 14 inches measured on a flat board**. Fish presented for weighing that are less than 14 inches in length will be disqualified prior to weighing and one pound per undersized fish will be deducted as a penalty. Only 5 fish per team, per day will be counted. **Teams are not allowed to have more than 5 fish in their permanent possession at any time, except for culling the 6th fish.** If more than 5 fish are kept in a team's possession, that team shall be disqualified for the day and shall receive no weight for the day.

It is the responsibility of the team to keep fish alive. A determination of whether the fish are alive or dead will be made **at the scales and a bonus of .10 pound will be awarded for each live fish weighed in.** No fish may be kept by any contestant with the exception of a trophy fish.

7.) **FISHING HOURS:** Fishing hours will begin at 6:30 A.M. each morning.

1st Day:	TEAM	STOP FISHING	WEIGH-IN BY
	Odd Team	2:00 P.M.	3:00 P.M.
	Even Team	3:00 P.M.	4:00 P.M.

2nd Day:	TEAM	STOP FISHING	WEIGH-IN BY
	Even Team	2:00 P.M.	3:00 P.M.
	Odd Team	3:00 P.M.	4:00 P.M.

8.) **FISH FINDER ELECTRONICS:** Contestants are not allowed to use fish finder electronics, such as two-dimensional sonar, down-imaging, and side-imaging, prior to their fishing start time on the two days of the fishing tournament. Such fish finder electronics may be used if pre-fishing on days prior to the two days of the fishing tournament

9.) **TIES:** In the event of a tie for 1st place, positions will be determined by contestants largest bass. In all other ties, if there is a difference in the monetary prize, the next prize will be added together and divided by two, each team receiving an equal share.

10.) **BOATS:** Boats may be used that are 14 feet or longer. Contestants may not change boats during tournament hours.

11.) **POLYGRAPH TEST:** Each contestant agrees to submit, by his signature on this application, to a polygraph test to be given at the discretion of the tournament committee. The administration & interpretation of the polygraph test is solely the responsibility of the tournament committee and its agents. Any contestant determined by the polygraph examiner or other tournament officials to be intoxicated or under the influence of any type of alcohol or illegal drugs at the time said contestant is required to take the polygraph examination, contestant will not be tested. **Such contestants will be subject to review by the tournament committee and disqualification could result.**

12.) **PROTESTS:** Complaints or protest must be submitted to the tournament committee within 30 minutes after weigh-in each day. All decisions rendered by the committee are final.

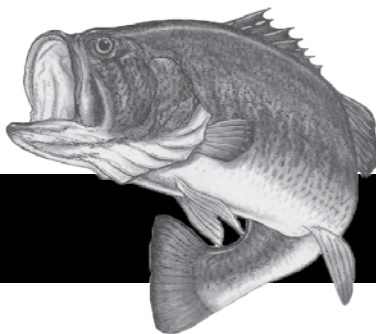

13.) **ENCROACHMENT:** A team is not permitted to approach nearer than 50 yards to any other boat which is tied or anchored with trolling motor out of water unless permission has been granted.

14.) **ENTRY SUBMITTAL:** Entries may be submitted by US Postal Service mail, special service such as Federal Express, by filling out the registration form on our website **www.oilmensbassclassic.com**, or by email to **fish32652@aol.com**.

15.) **REGISTRATION:** Each team must register with tournament committee between **12:00 NOON & 8:00 P.M., Thursday, Sept 4, 2025** at Cypress Bend Resort. They may pick up their ditty bags and shirt orders at this time. No late registrations will be allowed. Any teams failing to register by 8:00 P.M. may be subject to replacement by teams on a waiting list, if applicable.

16.) **LAUNCH SITE:** Contestants will be allowed to trailer boats to any landing on Toledo Bend. However, fishing is allowed only during tournament hours and weigh in time must be observed. Contestants will be allowed to launch at Cypress Bend site, but **WILL NOT** be allowed to pickup during weigh-in hours unless approved by the Weigh Master.

www.shrinershospitalsforchildren.org

Dear Friends,

Our kids can run. Our kids can dance. Our kids can climb. Thanks to you. Lives of children and their families change for the better every day because of you. We truly appreciate your thoughtful gift of \$10,000.00 given on 9/23/2023 designated to Shriners Hospitals for Children®, for its Shreveport location. Shreveport Shriners Hospital is the first in the world, and proud to celebrate **100 years of service regardless of the family's ability to pay.**

You are changing lives — like **Emma** who was born with clubfoot.

At two weeks old, Emma began corrective treatment. She went from casting to a Ponseti bar (two shoes that are connected by a bar). When she was three years old, she needed more casting to correct her gate. Eventually, Emma would need surgery.

After her surgery and months of physical therapy, Emma is now using a walking brace for the next several months. Her mom Renee said, "We are so thankful for Shriners. Emma has accomplished so much in her seven years because of the love and care received at Shriners."

Emma is excited to continue in gymnastics and other activities, although she will have regular visits to monitor her foot and gate as she grows. Your support allows our staff to treat thousands of patients like her from six states. Thank you for supporting our mission! Your support means the world to us!

Sincerely,

Stephen Caskey, Chairman
Board of Directors

In accordance with IRS regulations, we confirm that no goods or services were provided by Shriners Hospitals for Children® in return for this contribution.

LEXAL HT SA DRILLING JAR

SINGLE ACTING HYDRAULIC DRILLING JAR

The 500 SADJ and 700 SADJ are High Torque Single Acting Drilling Jars designed specifically for today's RSS BHAs. These jars allow the operator to place a Jar at the top of an RSS BHA without concern for inadvertently firing down and damaging the BHA components. Placing it at the top of the BHA allows for immediate jarring at the stuck point if the BHA becomes stuck, increasing retrieval success rates.

LEXAL USX150 **OVERSHOT**

ULTRA SX4540 5-1/2" 23 lb/ft have you in a tight spot?

The SX150 was developed to meet the challenges of today's complex cased hole environments. As operators continue to push the envelope, or rather shrink the envelope, Fishing Service companies are forced to improvise as conventional fishing tools just don't fit.

Rather than stand around and admire the SX150, we decided to do what we do: create a solution. Through the innovative team at LEXAL, we introduce the Ultra SX150. The **ONLY PURPOSE BUILT OVERSHOT** for fishing inside 5-1/2" 23 lb/ft casing. The 4" Max Catch allows for ESP removal without milling.

LEXAL SX150 **OVERSHOT**

The 21st Century Overshot

The SX150 is based on the industry standard Series 150 overshot. Improvements in metallurgy and manufacturing methods allowed us to increase strengths and catch ranges while maintaining the familiarity, reliability and operation of the standard Series 150.

The original Series 150 was designed in the 1930's and very little has changed since then regarding the overshot, while the wells we drill today have vastly changed. We set out to develop an overshot that is sized for today's casing and completions, while increasing strength and maintaining the same functionality to ensure seamless integration into existing operations. That overshot is the SX150.

OVERSHOT	SX5875	SX6000	SX6036
OVERSHOT OD	5.875"	6.000"	6.036"
MAX CATCH-SPIRAL	5-1/4"	5-3/8"	5-3/8"
MAX LOAD-SPIRAL	245,000 lbs	250,000 lbs	270,000 lbs

Lexal Mill Saver 5150

Increased cutting and Milling Efficiency. High efficiency downhole vibration dampening sub.

The Mill Saver 5150 is a unique downhole tool designed to minimize the damage incurred on the cutting structure of mills, cutters and section milling tools. Current downhole shock subs have linear metal springs, setup at high spring rates for drilling environments. The Mill Saver 5150 utilizes multiple nonlinear fluid springs that allow the tool to be setup for the specific downhole condition expected in a given job, typically significantly lower WOB's vs. drilling. It can be configured for standard milling ahead operations or for back-reaming operations. The fast response rate fluid springs combine with the natural frequency of the work string to dampen the vibrations created by the interface of the cutting structure and fish.

APPLICATIONS

- Junk Milling
- Casing Cutting
- Section Milling
- Casing Exits

SPECIFICATIONS:

TOOL OD	ID	Tensile Rating(lbs)	Torsional Rating(ft lbs)	Total Stroke
4.875"	2"	475,000	21,000	4.5"
6.5"	2.25"	800,000	50,000	4.5"
8"	3"	1,200,000	98,000	4.5"

FEATURES

- Proprietary multi chamber hydraulic dampening
- Can be setup for both standard milling and back-reaming
- Mandrel down to minimize moving mass
- Tunable Spring Rate
- Pure Hydraulic Tool - No metal springs - ensures fast dynamic response rate
- Endures operating temperatures of up to 300 F and 400 F with optional high temperature seals
- Can be effectively and efficiently integrated into BHA's
